

CHAPTER 28

# Post–World War II Carrier Deployments by Year

The carrier deployment list covers those for escort carriers (CVE), small carriers (CVL), antisubmarine carriers (CVS), and carriers with the designations CV, CVB, CVA, CVAN, and CVN. However, the list does not include carriers, usually CVEs, that deployed as part of the Military Sea Transportation Service to transport men, aircraft, and aviation cargo or when used as replenishment carriers. The deployment list also does not include carriers that may have been used in “Magic Carpet” operations or other missions involved in transporting men from or to the United States. Departure and return dates are normally from the carrier’s homeport or other stateside port.

\* *Kitty Hawk's* (CV 63) final deployment concluded in San Diego, Calif., where the Navy's last conventionally powered carrier turned over duties as the forward-deployed carrier in the Pacific to *George Washington* (CVN 73). Originally scheduled to take place in Pearl Harbor, Hawaii, in June 2008, the turnover was rescheduled to August as *George Washington* underwent repairs following a shipboard fire in May.

† While not a major deployment, *George Washington*'s first underway period as the forward-deployed carrier is included in this listing.

Some of the squadrons, such as VAQ, VAW, and RVAH, lost their individually assigned tail codes in the late 1960s or early 1970s and are authorized to use those of their permanently assigned carrier air wing.

Tail codes for Marine Corps squadrons that deployed on board carriers are not included in the list.

#### Notes and explanations-specific entries:

\*These squadron detachments were not on board the carrier for the entire deployment.

<sup>†</sup>This carrier returned from deployment prior to the beginning of combat operations in Vietnam during 1964.

<sup>‡</sup>VAQ-135 Detachments 3 and 5 were transferred on 25 August 1973 to VAQ-130. VAQ-135 Det 3 became VAQ-130 Det 2 and VAQ-135 Det 5 became VAQ-130 Det 5.

<sup>§</sup>VAW-111 Det 6 was transferred in March 1974 to RVAW-110 and became RVAW-110 Det 6.

<sup>||</sup>On 20 April 1967 VAW-111 was established and VAW-11 detachments became part of VAW-111. VAW-11 Det Q became VAW-111 Det 20.

<sup>#</sup>This deployment involved an experiment with the composition of the carrier air wing in a multimission role. Several of the squadrons were shore-based in the Philippines during different periods of this deployment.

<sup>\*\*</sup>On 1 October 1968 VAQ-13 and its detachments were redesignated VAQ-130.

3. VAP-61's Command History Report for 1968 indicated continued support of 7th Fleet carriers on Yankee Station. However, the squadron's report does not identify the detachments deployed on board carriers in WESTPAC during 1968. HC-7 was established on 1 September 1967. In 1968 an HC-7 detachment was formed and given the mission of maintaining year-round combat configured helicopters on board carriers and other ships operating on Yankee Station for combat search and rescue missions. The 1968 HC-7 Command History Report does not identify all the specific ships that Detachment 110 operated on board. VQ-1 detachments continued to support carrier operations in Vietnam. However, the 1968 VQ-1 Command History Report does not mention any detachments that were on board carriers operating on Yankee Station.

4. VQ-1 and VAP-61 detachments provided support from DaNang Air Base, Republic of South Vietnam, for fleet carriers operating on Yankee Station in 1969.

5. On 30 June 1975, all carriers with the designation CVA or CVAN were changed to CV or CVN to reflect the multimission capability of the carrier.

6. Midway permanently home ported in WESTPAC.

#### Numbered Notes

1. VAW-13's records for 1966 do not specify the carriers they operated on board. However, the records indicate VAW-13 Det 1 (located at Cubi Point, P.I.) provided detachments in support of fleet strikes from the carriers on Yankee Station.

2. VAW-13 did not submit a Command History Report for 1967, consequently, it is not possible to verify all the squadron's detachments operating on board carriers on Yankee Station in 1967. VQ-1's Command History Report for 1967 did not identify the detachments or carriers they operated from in support of combat operations against Vietnam.

**Notes for VP and Non-Carrier Based Squadron Deployments to Vietnam (1964–1972):**

1. Date In and Date Out are normally the dates the squadron arrived and departed from the air station or base it operated from during its deployment. Squadron detachment numbers or letters are not listed. There were numerous changes and rotation of patrol squadron aircraft and crews from the squadron's main base of operation during its deployment. A squadron's detachment was usually identified by using the name of the base from which the detachment operated. Some of the squadrons that deployed to Vietnam did not have or use detachments.

2. In some cases specific dates for the squadron or its detachments were not known or could not be determined from official sources.
